

Soft Mining.AI

Revolutionizing Cryptocurrency Mining with AI

About us

Founded in 2013 in Japan, the company started as Soft Mining, focusing on traditional Bitcoin mining. Under the leadership of Daiki Hashimoto, the business quickly was established as innovative in the sector, optimizing its operations with the use of cutting-edge hardware ASIC and exploring modern technologies. Recognizing the potential of artificial intelligence, Soft Mining began intensive AI research in 2016 and, integrating advanced algorithms, was rebranded as Soft Mining AI. Today, we lead globally as a premier AI-driven cryptocurrency mining company, committed to excellence, sustainability, and the future of blockchain technology.

A portrait of Takashi Saito, a man with dark hair, wearing a dark suit, white shirt, and dark tie. He is standing with his arms crossed, looking slightly to the right. The background is a dark green gradient.

Leadership

Takashi Saito

Recognized throughout Asia for his commitment and experience in business development in JKD since 2010.

He has implemented major projects worth \$1.9 billion in satellites, oil pipelines, gas pipelines, and power plants, in addition to having extensive experience with international investment banks, investing over \$300 million in blockchain projects.

Acting with mining since 2013, he was one of the pioneers throughout Asia and his company is one of the largest in the AI market in Japan, creating technologies focused on the healthcare sector.

Mission

To empower individuals and organizations around the world with innovative cryptocurrency mining solutions, **using artificial intelligence to optimize the efficiency**, profitability, and sustainability of mining operations.

Soft Mining.AI

Powered **Soft Mining AI**

Vision

To be globally recognized as a leader in the cryptocurrency mining sector, establishing new standards of excellence and innovation through the **integration of artificial intelligence technology** and contributing to the sustainable and responsible development of the industry.

AI-Powered Mining Technology

Bitcoin mining enhanced by artificial intelligence (AI) at Soft Mining AI stands out through various techniques, benefiting from technological advancements originating in Japan and other global research centers. One of these techniques is the use of Reinforcement Learning (RL) algorithms, which allow the mining system to learn and continuously adapt to achieve maximum performance. Studies demonstrate that RL can generate optimal mining strategies, maximizing rewards. Additionally, AI is employed in real-time data analysis, processing large volumes of market and blockchain data to support more informed strategic decisions of when and what to mine.

AI-Powered Mining Technology

Other crucial aspects of Soft Mining AI's approach include optimizing mining hardware, enabling more efficient use of equipment, and improving energy efficiency, vital for addressing the environmental concerns faced by the industry. The company is at the forefront of this revolution, employing AI technologies to make Bitcoin mining more efficient, profitable, and sustainable, reflecting the continuous commitment to innovation and leadership in the sector.

Powerd Soft Mining AI

Return on Investment (ROI)

Profit distribution

30% per month
300% total profit
1.2% per day

Binary Bonus

10% on the weaker leg of the binary network. Level and Volume Rank Achieved (50% Rule):

Direct Referral Bonus

7% on the amount invested by the directly recruited affiliate.

Mining Stations

Soft Mining.AI

Soft Free

No initial investment required, no guaranteed returns. (Ensures the possibility of building a network up to level 2)

Soft Start

(\$100): Mining power based on less efficient ASIC Miner.

Soft Basic

(\$500): Mining power equivalent to Canaan AvalonMiner 1246.

Soft Light

(\$1,000): Mining power equivalent to Bitmain Antminer S17 Pro.

Soft Pro

(\$3,000): Mining power equivalent to Bitmain Antminer S19.

Soft Advance

(\$5,000): Mining power equivalent to MicroBT Whatsminer M30S+.

Soft Pro Hard

(\$10,000): Mining power equivalent to Bitmain Antminer S19 Pro.

Powered Soft Mining AI

Soft Elite

(\$25,000): MicroBT Whatsminer M30S+ ASIC pools, for more efficient mining.

Powered Soft Mining AI

Soft VIP

(\$50,000): Bitmain Antminer S19 Pro ASIC pools, for maximum mining efficiency.

Career Plan

Miner

Volume of \$10,000
considering 50% of the
stronger leg.

Prize: \$300 in USDT

Prospector

Volume of \$20,000
considering 50% of the
stronger leg.

Prize: \$600 in USDT

Extractor

Volume of \$40,000
considering 50% of the
stronger leg.

Prize: \$1000 in USDT

Career Plan

Digger

Volume of **\$100,000**
considering 50% of the
stronger leg.

Prize: A Montblanc pen or
\$1000 in USDT

Driller

Volume of **\$200,000** considering
50% of the stronger leg.

Prize: A trip to Mexico, including
accommodation for two, or \$5,000.

Blaster

Volume of **\$500,000**
considering 50% of the
stronger leg.

Prize: \$10,000 or a Rolex.

Career Plan

Surveyor

Volume of **\$10000,000**,
considering 50% of the
stronger leg.

Prize: A Mercedes or \$50,000.

Geologist

Volume of **\$1,2 Million**
considering 50% of the
stronger leg.

Prize: A Ferrari or \$100,000.

SoftAI Governance Token

Participation in Business Decisions

SAI holders will have the power to influence crucial decisions of Soft Mining AI through voting, shaping the future direction of the company.

Mining Services Discounts

The SAI will enable exclusive discounts on mining fees and other services offered by the company, providing financial advantages to holders.

Soft Mining.AI

SoftAI Governance Token

Early Access to New Technologies

The SAI offers the opportunity for early access to mining and AI technological innovations developed by Soft Mining AI, ensuring a competitive advantage for users.

Loyalty Rewards

Loyalty programs will be implemented to reward users for continuous use of the company's services and for holding SAI, encouraging loyalty and engagement.

SoftAI Governance Token

Payment for Products and Services

The SAI will function as a means of payment to acquire products and services related to mining and AI, offering convenience and versatility to holders.

Staking and Rewards

SAI holders will have the opportunity to stake the cryptocurrency to receive additional rewards, contributing to the security and stability of the network.

Development Incentives

Developers who contribute improvements and innovations to the Soft Mining AI platform will be rewarded with SAI, encouraging collaboration and continuous development.

Trading on Cryptocurrency Exchanges

SAI will be available for trading on reputable cryptocurrency exchanges, offering liquidity and flexibility for holders.

SoftAI Governance Token

Funding Sustainable Projects

Part of the profits obtained from SAI will be directed towards funding sustainability and social responsibility projects, demonstrating the company's commitment to global well-being.

Strategic Exchange Launch

The launch of SAI on recognized cryptocurrency exchanges is planned, increasing its accessibility and visibility in the market, consolidating its position as a valuable asset in the Soft Mining AI ecosystem.

Roadmap and Future Plans

A roadmap for the company for the upcoming years

IAMSOFMINING.TV is now live.

Streaming official of everything happening at Soft Mining in real time, a platform for users to connect to the company and its technologies in real time. Live from your Back Office. Date: August 8th, 2024.

Launch of the Gemini exchange.

AI-based exchange, in development since 2021, being the first AI-based exchange on the planet. Launch of the exchange in London, at the company's European headquarters. Date: November 15th, 2024.

First Semester:

- Governance Token Launch:
 - Official launch of the Soft Mining AI governance token in April 2024.
 - Implementation of voting features and community participation on the platform.
- Mining Infrastructure Expansion:
 - Increased mining capacity with new high-efficiency ASIC machines.
 - Optimization of data centers for better energy efficiency.

Second Semester:

- Token Marketing Campaign:
 - Launch of a global marketing campaign to promote the governance token.
 - Participation in cryptocurrency events and conferences to increase token visibility.
- Development of Strategic Partnerships:
 - Establishment of partnerships with technology and cryptocurrency companies.
 - Collaboration with research institutions for innovation in AI and mining.

What will happen in 2025?

Purchase of land in Vietnam and China.

January 05, 2025: Commencement of construction for future mining facilities based on our AI technology.

February 20, 2025: Start of construction for the mining facilities in Vietnam and China.

1-year anniversary of the company in Dubai.

10 days at the Atlantis resort for over 5,000 leaders.

Launch of Soft Mining's ATMs: Automated teller machines for withdrawing cryptocurrencies in their respective countries. July 6, 2025.

Completion of the construction of mining facilities in Vietnam and China. November 9, 2025.

First Semester:

- Listing on Asian Exchanges:
 - Listing of the token on prominent exchanges in Asia, such as Bybit, MEXC, and OKX.
 - Implementation of liquidity strategies to ensure token stability.
- Mining Technology Update:
 - Launch of new versions of AI algorithms to increase mining efficiency.
 - Introduction of advanced functionalities on the mining platform.

Second Semester:

- Expansion into New Markets:
 - Initiation of Soft Mining AI's expansion into markets outside of Asia.
 - Adaptation of services to meet local demands and regulations in the new markets.
- Sustainability and Social Initiatives:
 - Implementation of sustainability projects, such as the use of renewable energy.
 - Launch of social responsibility programs to support local communities.

Throughout the year of 2026.

Official launch of mining facilities in Vietnam on February 25, 2026.

Mining facility in China on March 5, 2026.

Consolidation and Global Growth:

- Consolidation of Soft Mining AI's global presence and continuous expansion into new markets.
- Focus on continuous improvement of AI technology and optimization of mining operations.

Development of New Products and Services:

- Launch of new products and services related to cryptocurrency mining and AI.
- Investment in research and development to maintain technological leadership in the industry.

Join the cryptocurrency
mining revolution with
Soft Mining AI.
